The purpose of this contract is to provide a framework for laboratories to apply USEPA contract Laboratory Program (CLP) analytical methods for the multi level detection and quantitative measurement of trace volatile or low-medium volatile, semi-volatile, pesticide, and aroclor compounds in multimedia samples. The Contractor shall maintain the technical capability to perform the required analyses and maintain an acceptable level of personnel, equipment, and systems, as delineated in the Statement of Work SOM01.0, and the amendments made to the Statement of Work under SOM01.0 (Exhibits A-H) throughout the period of contract performance. Analytical data provided under this contract may be utilized to support such litigation; therefore, it is imperative that the Contractor adhere strictly to all methods and procedures specified herein, so that resultant analytical data may be used for its intended purpose.

Note: The Contractor may be required to appear and testify to the accuracy and/or validity of the data generated. The Government may provide assistance to laboratory personnel in recalling and defending their actions under cross examination, if required to present court testimony in enforcement case litigation. If these services are required by the Government, the services will be procured under a separate contract vehicle.
